

1-2 has 37 students  
3-4 has 75 students  
the latter needs twice as many volunteers at registration desk

This is a couch but it would be great if we had some retractable belt stanchions to extend the partition into the dotted section, to direct 3-4 to desk and 1-2 to move along

Split into grades 6-12, 1-2, 3-4 at entrance  
highest priority in terms of volunteers

Parking area

- Indicates desired traffic flow
- Indicates desired volunteer (excluding those at registration desks)

Military trail

We probably only need a single volunteer near the parents room in the basement
